

GOVERNOR ARNOLD SCHWARZENEGGER

November 18, 2010

Guyana Tribute Foundation

I extend my sincere greetings to all those gathered to commemorate the thirty-second anniversary of the Jonestown Memorial.

Today, we pay tribute to the many innocent people that lost their lives so many years ago. Though decades have passed, the devastation from this tragedy can still be felt. The erection of the Cherishing the Children Memorial Wall will help ease the pain of family members, friends and others in our community who have been impacted by the Jonestown massacre. May this wall serve as a reminder for the unity, self-preservation, restoration and healing of all men, women and children.

California is such a great place to live because of our compassionate and sympathetic citizens. On this day, let us remember that even in the wake of great tragedy, the triumphant spirit of our community helps us heal and progress.

Please accept my heartfelt wishes for a memorable event.

Sincerely,

A handwritten signature in black ink, appearing to read "Arnold Schwarzenegger".
